

Family English

What's the course about?

The course is about improving your own English skills in order to be more confident to support your child's learning and to improve your job opportunities. It looks at how English is taught in pre-school/schools and offers a chance to gain a current adult Functional Skills qualification. Please note this course is appropriate for learners who have NOT previously done a functional skills English course before.

What does the course involve?

Fun and friendly sessions where you can meet with other parents and carers and share ideas.

The course is run during term time for parents and carers. Sessions are usually 2 and a half hours a week for 12 weeks.

Sessions include discussions, practical activities, individual work and group work. You will work towards a Functional Skills English qualification and prepare for assessments. Learning will also be linked to the way pre-school/schools teach English.

What will I get from the course?

confidence in using the English skills we need for everyday life:

- to support your child's learning
- to **write** different types of texts, e.g. letters and emails
- to **read** and understand a variety of texts
- to join in group **discussions**

Refreshments and time to talk to other parents/carers

An opportunity to work towards a qualification in English
